Curriculum vitae

Yossi Loya

Professor (Emeritus) of Marine Ecology
School of Zoology, Tel Aviv University
Tel Aviv, 69978 Israel

Date of birth: 23 May 1942

Place of birth: Plovdiv, Bulgaria

Year of immigration: 1944

Zahal, Military Service: 1960-1962

Marital Status: Married to Shoshana Loya

Children: Yael, Shay and Assaf

Lab:

Tel: 972-3-640-768

e-mail: yosiloya@tauex.tau.ac.il

Home:

31 Hakochav St. Raanana 43568

Tel: 972-9-774-1921

Mobile: 054-637-2121

EDUCATION

Year	University/ Institute	Department	Degree
1962-1965	Tel Aviv University, Israel	Biology	B.Sc.
1965-1967	Tel Aviv University, Israel	Zoology	M.Sc.
1967-1971	State University of New York at Stony Brook, L.I. N.Y.	Ecology & Evolution	Ph.D.
M.Sc. Thesis:	“Ecology of fish breeding in brackish water ponds near the Dead Sea”. <i>(Summa cum laude)</i> .		
	<u>Supervisor:</u> Prof. L. Fishelson		
Ph.D. Thesis:	“Community structure and species diversity hermatypic corals at Eilat, Red Sea”.		
	<u>Supervisor:</u> Prof. L.B. Slobodkin		
Post-doctorate:	Woods Hole Oceanographic Institution, Mass.		
1971-1972	<u>Research:</u> “Oil pollution effects on benthic communities in Buzzards Bay Woods Hole”		
	<u>Supervisor:</u> Prof. Howard Sanders		

AREAS OF SCIENTIFIC INTEREST

My scientific interests are broad but ultimately linked to the ecology of reef-building corals including: Ecology and Evolution; Species diversity and community structure; Life history strategies of corals and their associated fauna; Competitive networks and space partitioning within coral populations; Effects of natural and anthropogenic disturbances; Effects of oil pollution on coral- reef communities; Conservation ecology and management of coral reef Nature Reserves; The role of boring organisms in bioerosion of coral reefs; Ecology of mesophotic coral environments (MCEs; 30-100 m depth); Sex change in corals; Global climatic changes and its effect on coral-reef communities; Coral bleaching; Coral diseases; Reef recovery, and refugia from climate change; Dynamics of coral populations and identification of key processes that regulate those dynamics. Predictive models of changes in coral-reef communities providing information on how to increase the chances of their survival.

ACADEMIC AND PROFESSIONAL APPOINTMENTS

Year	University/Institute	Department	Title
1962-1965	Tel Aviv University	Biology	B.Sc.
1965-1967	Tel Aviv University	Zoology	M.Sc.
1968-1971	State University of New York at Stony Brook, L.I., N.Y.	Ecology & Evolution	Ph.D.
1971-1972	Woods Hole Oceanographic Institute, Woods Hole, Mass.	Marine Ecology	Post-doctorate
1972-1976	Tel Aviv University	Marine Ecology	Lecturer
1976-1980	Tel Aviv University	Marine Ecology	Senior lecturer
1980-1986	Tel Aviv University	Marine Ecology	Associate Professor
1986-present	Tel Aviv University	Marine Ecology	Full Professor
1979-1980	The Australian Institute of Marine Science (AIMS)	Marine Ecology	Senior Queen Elizabeth Fellow
1988-1989	Tel Aviv University	Zoology	Chairman
1990-1995	Tel Aviv University	Faculty of Life Sciences	Dean
1995-2000	The Porter Center for Ecological and Environmental Studies, Tel Aviv University	Ecology	Director
1997-2012	Raynor Chair for Environmental Conservation Research, TAU	Environmental Conservation	Chair
1985-1986	Scripps Inst. of Oceanography La Jolla, San Diego USA	Ecology	Visiting Professor
1995, 97, 99, 04, 05 07, 08, 09, 10, 12,14 17,19,21 (summers)	University of the Ryukyus, Okinawa, Japan	Sesoko Tropical Biosphere Research Center	Visiting Professor
2007-2008	University of California Los Angeles (UCLA)	Ecology and Evolutionary Biology	Visiting Professor
2008-2018	James Cook University, Townsville, Australia	Marine Ecology	Adjunct Professor
2009	Center of Excellence, James Cook University, Townsville, Australia	Coral Reef Studies	Visiting Professor
2009 - present	Israeli Academy of Sciences and Humanities	Science Division	Member

INTERNATIONAL COMMITTEES ADVISORY AND ADMINISTRATIVE DUTIES

1971-1973	Member-	Scientific Committee on Oceanic Research (SCOR, UNESCO), Working group on: "Quantitative studies on coral reefs"
1977-1979	Chairman-	The Zoological Society of Israel.
1979-present	Member-	Editorial board of the journals: <i>Marine Ecology Progress Series</i> (76-84); <i>Coral Reefs</i> (82-86) <i>Marine Biology</i> (86-94); <i>Marine pollution Bulletin</i> (2002-2005)
1986-1992	Advisor-	Israel National Academy of Science- Basic Research Foundation.
1978-1990	Member-	Scientific advisory board Nature Protection Authority, Israel
1978-1992	Member-	International Association of Biological Oceanography (IABO) Scientific international committee of the following coral reef symposia: -3 ^d International Symposium on Coral Reefs: Miami, Florida, 1977; -4 th International Symposium on Coral Reefs: Philippines, May 1981. -5 th International Symposium on Coral Reefs: Tahiti, June 1985. -6 th International Symposium on Coral Reefs: Australia, August 1988. -7 th International Symposium on Coral Reefs: Guam, June 1992.
1982-1992		Council Member - International Society for Reef Studies (ISRS).
1982-1986		1st Editor - "Coral Reefs" (Biology Section) Springer-Verlag.
1986-1992	Member-	The Scientific Review Board, Oil Spill Project- Smithsonian Tropical Research Institute (STRI, Panama)
1992	Head-	The Israeli Scientific Delegation to the UN Conference on Environmental Development (UNCED) Rio-de Janeiro, Brazil.
1993-1994	Head -	Israeli scientific delegation to the Israel-Jordan Peace Talks establishing the Red Sea Marine Park Aqaba, Jordan
1993-2000	Chairman-	Israeli Man and the Biosphere (MAB)- Committee, UNESCO
1996-1999	Advisor-	Israeli Ministry of Science (Germany-Israel Marine Biology Program).
1997-1999	Advisor-	Israel Science Foundation (Ecology committee)
1996-1999	Chairman-	Board of Directors, Inter-University Institute of Marine Science (IUI), Eilat.
2000-2008	Member-	Board of Directors, IUI, Eilat
2001-2005	Member-	Scientific advisory board Nature Protection Authority, Israel
1989-1990	Chairman	Department of Zoology, Tel Aviv University
1990-1995	Dean -	Faculty of Life Sciences, Tel Aviv University
1990-1995	Member-	University Central Committee, Tel Aviv University
1990-1995	Member-	Board of Governors, Tel Aviv University
1990-2002	Member-	Board of Trustees, Tel Aviv University
2000-2004	Member-	Academic Planning Committee, Tel Aviv University
2004-2007	Member-	Central Nomination Committee, Tel Aviv University
2002-2004	Member-	Advisory and Review Board of the Research Institute of the Subtropics, Okinawa, Japan (Coral bleaching project).
2004- 2010	Co-Chair-	GEF/World Bank Working Group on Coral Bleaching.
2006- 2014	Chair	Scientific Board of the Australian Research Council (ARC) Centre of Excellence on coral reef research
2011-2019	Chair-	Israeli Scientific Committee for Oceanic Research (SCOR)
2014-present	Chair -	Israel Academy of Sciences Committee on scientific relations with Japan
2015-present	Chair-	Advisory Board: Batsheva de Rothschild Fund for the Advancement of Science in Israel

PRIZES/HONORS

Senior Queen Elizabeth Fellow (1979-1980):

"For excellence in Marine Science and collaboration with Australian coral-reef scientists".

The Darwin Medal (Millennium Year-2000): The most prestigious prize of the International Society for Coral Reef Studies (ISRS) awarded once every four years, *"for lifetime outstanding contribution to the field of coral reef research"*.

The Landau Prize (2003): Awarded, by Mifaal Hapais in the category of Life Sciences *"for original outstanding research contribution to the field of Ecology and Environmental Quality"*.

Honorable membership of the Israel Society of Zoology (2011): *"in recognition of his important contribution to research, teaching, education and nature conservation"*.

EMET Prize in Exact Sciences: Environmental studies (2015): *"for his pioneering and groundbreaking achievements in coral-reef research and for his seminal contribution in developing quantitative methodologies for assessment of biodiversity and health of coral communities and significant contribution to the knowledge of their reproductive strategies"*

Lifetime Achievement Award on behalf of the Israeli Association for Ecology and Environmental Sciences (2023): *"for brilliant research excellence of the coral reef, for endless public activity and struggles to preserve the coral reefs in Eilat, and the leadership of the Department of Zoology and the Faculty of Life Sciences at Tel Aviv University, while educating a huge generation of students and developing the future generation of Sea researchers in Israel"*.

AWARDS

- | | |
|------------------|--|
| 1973 - | NOAA - Manned Undersea Science and Technology Program: "External distribution of energy fixed by reef corals at Puerto-Rico". Two weeks underwater expedition using underwater laboratory-PRINUL (In collaboration with Professors. S. Richman and Dr. L. McCloskey). |
| 1974 - | National Council for Research and Development: "The effect of pollutants on coral reef communities". |
| 1974-1976 | U.S.-Israel Bi-National Science Foundation:(BSF): "Growth and development of reef corals." |
| 1975-1976 | National Council for Research and Development: "Experiments on the effect of oil pollution on hermatypic corals". |
| 1976-1979 | Ministry for Commerce and Industry: "Biologically active products from marine organisms". (With Prof. Y. Kashman, Tel- Aviv University) |
| 1979-1980 | Senior Queen Elizabeth Research Fellowship: Australian Institute of Marine Science, Cape Ferguson, Australia. |
| 1980-1983 | Israeli Academy of Sciences- Basic Research Foundation: "The variation in the chemical composition of soft-corals and sponges as a function of the place of collection" (with Prof. Y. Kashman, TAU). |
| 1980-1983 | U.S.-Israel Bi-national Science Foundation (BSF): "Isolation and identification of New Marine Natural Products" (with Prof. Y. Kashman, TAU). |
| 1984-1985 | The Fund for Basic Research, Tel Aviv University: "Ecology of boring bivalves in living stony corals". |
| 1984-1987 | The Society for Nature Protection: "Massive predation of scleractinian corals at Eilat caused by a predatory gastropod". |
| 1984-1987 | Israeli Academy of Sciences- Basic Research Foundation: "Reproductive strategies of Red Sea scleractinian corals". |
| 1986-1989 | U.S.-Israel Bi-national Science Foundation (BSF): "Larval ecology of boring bivalves in living corals". |
| 1988-1990 | Harbor Branch Oceanographic Institution, Sea Pharm Project: "Bioactive materials derived from soft corals and sponges from the Red Sea" (with Prof. Y. Kashman, TAU) |

Yossi Loya	Tel Aviv University
1989-1992	National Council for Research and Development - Joint German-Israeli Program: “A new method to assess indicators of environmental stress and possible stabilization or degradation of toxicants in coral reefs”.
1990-1992	FAO Mediterranean Action Plan (MED POL): “Swarming of jellyfish along the Mediterranean Coast of Israel: An environmental approach”.
1990-1993	National Coal Company: “Effects of coal pollution on coral reefs”.
1991-1994	Office of Environmental Quality: “Medusa blooms in the Mediterranean Sea: Ecological aspects”.
1991-1995	US National Institute of Health (NIH): “Novel natural products from the sea as potential anti-AIDS drugs” (PI with Prof. Y. Kashman, School of Chemistry and Prof. A. Hizi, Medical School, TAU).
1992-1995	Israel Academy of Sciences-Basic Research Foundation: “Bioerosion of coral reefs by sponges, sea-urchins and bivalves”.
1993-1996	The German Israeli Foundation for Scientific Research and Development (G.I.F.): “Patterns of stable isotope fractionation during mineralization processes in corals: environmental implications”.
1996-1999	Israel Science Foundation (ISF): “Bioerosion of coral reefs a multidisciplinary approach”. (With B. Lazar, the Hebrew University)
1996-1999	U.S.-Israel Bi-National Science Foundation (BSF): “Coral bleaching by bacteria”. (PI with E. Rosenberg, TAU).
1995-1999	The German Ministry of Education, Science, Research and Technology (B.M.B.F.): - Red Sea Program- “Scleractinian corals as environmental recorders of the Red Sea”.
1998-2002	Israeli Ministry of Science: (PI with M. Ilan, TAU). Novel Bioactive Compounds from Marine Invertebrates and their symbionts
1998-2002	Ministry of Science: “Establishment of a National Infrastructure Laboratory: Center for High Israeli Throughput Screening (HTS) for Novel Bioactive Compounds at Tel Aviv University” -(Director and Coordinator of a research project involving 22 scientists from 6 universities and research institutions in Israel).
1999-2003	MERC-Bi-National Research and Monitoring Program (Israel -Jordan) for the Red Sea Marine Peace Park, Aqaba, Jordan (heading the monitoring program of “community structure of stony corals at the Coral Nature Reserve”)
2002-2006	Israel Science Foundation (ISF): “Alternative feeding mechanism in corals: bacterial aggregate “gardening” (PI in collaboration with A. Kushmaro, Ben Gurion Univ.)
2004-2008	Marie Curie European Research Training Network (with M. Ilan, TAU)
2005-2010	GEF/The World Bank/UNESCO/IOC: International Targeted Working Group of Experts on "indicators of coral bleaching". Co-Chairman with Prof. Ove Hoegh Guldberg, including 14 scientists from the USA, England, Australia, Kenya, Israel, and Mexico. The group meets annually and works together for 2-3 weeks at one of the following reef sites: Heron Island (Great Barrier Reef, Australia), Puerto Morelos (Mexico), Philippines & Zanzibar.
2003-2007	Israel Science Foundation (ISF)- “An integrative approach of studying bacterial coral bleaching in the coral reef of Eilat”. (PI with E. Rosenberg, TAU).
2004 -2006	Porter School of Environmental Studies in collaboration with the Italian Ministry the Environment: “Artificial Marine Structures (AMS): Multifunctional Tool for Research and Environmental Management in the Mediterranean and Red Sea (MED- RED) (PI with Y. Benayahu and A. Abelson).
2004-2008	Israel Science Foundation (ISF): The isotopic composition of Eilat's corals: basic aspects of signals Build up and tracing anthropogenic stress. PI in collaboration with A. Shemesh, the Weizmann Institute)
2007-2011	Israel Science Foundation (ISF): Etiology of Black Band Disease (BBD), Red Sea” (PI with E. Rosenberg, TAU).

Yossi Loya	Tel Aviv University
2012-2013	Israel Taxonomy initiative (ITI): Taxonomy & molecular systematics of the Ctenophore fauna along the coasts of Israel (PI in collaboration with Dorothee Huchon, TAU)
2012-2013	Israel Taxonomy Initiative (ITI): Biodiversity of Mesophotic Scleractinian corals in the Gulf of Eilat/Aqaba.
2012-2016	Israel Science Foundation (ISF): Sex-allocation and sex change in mushroom scleractinian corals: a long-term study.
2013-2016	Middle East Regional Cooperation (Program: U.S. Agency for International Development, Bureau for the Middle East (MERC-AID): Developing novel methodologies for preservation and maintenance of coral biodiversity.
2016-2020	Israel Science Foundation (ISF): The mesophotic coral reefs of Eilat: reproduction, recruitment, community structure, and connectivity – a long term study
2017-2022	Singapore Research Foundation -Israel Science Foundation (Joint NRF-ISF) grant: Sex allocation, reproductive strategies and reproductive senescence in fungiid corals: a A comparative study in the coral reefs of Israel and Singapore
2021-2025	Israel Science Foundation (ISF): Coral and boring Bivalve symbiosis: Does coevolved mutualism support the resilience of coral reefs or does parasitism threaten their future?"
2022-2005	NSF-BSF: US-Israel Binational Science Foundation joint program with NSF. Photophysiology and bio-optics of Red Sea mesophotic corals (PI with Prof. Tresguerres Martin, University of California; Scripps Inst of Ocean, USA).

MEMBERSHIP IN PROFESSIONAL SOCIETIES

Ecological Society of Israel; Zoological Society of Israel; The Israeli Association for Aquatic Sciences; Ecological Society of America; International Society for Reef Studies

SUPERVISION OF GRADUATE STUDENTS **Ph.D. students**

Graduation Year	Name	Thesis title
1982	Yehuda Benayahu	Population dynamics and life-history strategies in Red Sea soft corals.
1982	Baruch Rinkevich	Calcification and productivity in the scleractinian coral <i>Stylophora pistillata</i> .
1984	Avi Shafir	Aspects of energy flow within the coral <i>Stylophora pistillata</i> and some of its associates.
1984	Yechiam Schlesinger	Reproduction and juvenile growth in stony corals.
1988	Craig Browdy	Growth and reproduction of the shrimp <i>Penaeus semisulcatus</i> in captivity.
1989	Micha Ilan	Life strategies of sponges from the Red Sea: Reproduction, settlement and self/non-self-recognition.
1993	Avigdor Abelson	Biomechanical aspects in biology and ecology of sessile organisms in coral reefs.
1993	Ofer Mokady	Bioerosion rate of corals by boring bivalves: A chemical approach.
1994	Ramy Klein	Skeletal banding in recent and fossil corals.
1995	Amit Lotan	Medusae blooms in the Mediterranean Sea: Ecological and toxicological aspects.
1998	Ester Kramarsky Winter	Reproductive strategies of fungiid corals: sexual and asexual reproduction.

Yossi Loya		Tel Aviv University
1998	Ariel Kushmaro	Interactions between corals and their associated bacteria. (Co-Supervisor: Prof. E. Rosenberg).
2002	Maoz Fine	Community structure and dynamics of Mediterranean corals.
2003	Michael Rosenfeld	The use of contemporary corals in predictive models concerned with global climate change.
2003	Dov Kelman	Biologically active materials derived from Red Sea organisms.
2003	Omer Choresh	Expression of heat shock proteins (HSPs) in marine invertebrates: development of an early warning system for disturbed marine environments.
2007	Gidon Winters	Photoinhibition in corals – effects of UV, PAR and temperature.
2007	Noa Shenkar	Population dynamics of Mediterranean and Red Sea tunicates.
2009	Amy Shlesinger	Nudibranch/Anemone associations: a study of life histories and interactions.
2010	Assaf Zevoluni	Spatial patterns in coral reef populations.
2013	Rachel Armosa	Physiological mechanisms involved in the reproduction of Anthozoa.
2014	Omri Bronstein	Ecology, biology, and taxonomy of coral-reef associated sea urchins in the Red Sea and the western Indian Ocean
2018	Ada Alamaru	Molecular systematics of benthic ctenophores (Family: Coeloplanidae) from the Gulf of Eilat/Aqaba, Red Sea.
2018	Gal Eyal	Biodiversity of mesophotic (30-60 m depth) scleractinian corals in the Gulf of Eilat/Aqaba.
2019	Lee Eyal-Shacham	Individual annual fecundity and reproductive energy investment in solitary corals (Fungiidae).
2019	Tom Shlezinger	Demography, reproduction, and taxonomy of scleractinian corals along a large depth gradient (0–60 m)
2021	Or Ben-Zvi	Coral Fluorescence: testing the major hypotheses on mesophotic corals.
2021	Raz Tamir	Effects of downwelling irradiance and light spectrum on the community structure of corals (0-60 m depth).
2022	Mila Grinblat	Biogeography, reproductive biology, and early development in scleractinian corals (Co-supervisor with Professor David Miller, Dr. Ira Cook, Dr. Peter Cowman (JCU Australia))
2022	Tal Amit	In situ study of the metabolic strategies of bivalves residing in oligotrophic seas (Co-Supervisor: Prof. Gitai Yahel)
2023	Netanel Kramer	Macro- and microscale aspects of scleractinian coral morphology along shallow-to-mesophotic depths
Current	Hanna Rapuano	Aspects of aging in scleractinian corals.

2012	Ram Barankin	A precautionary approach for environmental policy: a basic model for discussion between science, law, and policy.
2014	Tom Shlezinger	Recruitment and mortality of corals at the coral reefs of Eilat.
2015	Or Ben-Zvi	Fluorescence in shallow vs. deep water (mesophotic) corals.
2015	Tal Amit	Ecology and Physiology of symbiotic communities of corals along a depth gradient at the Gulf of Eilat.
2016	Hanna Rapuano	Reproductive strategies of the coral <i>Turbinaria reniformis</i> in the northern Gulf of Eilat, Red Sea
2016	Mila Grinblat	Connectivity between mesophotic corals and shallow corals.
2017	Bar Feldman	Life-history traits of the coral <i>Paramontastrea peresi</i> in shallow vs. mesophotic reef habitats.
2018	Netanel Kramer	Recruitment dynamics of mesophotic vs. shallow-water corals on settlement panels.
2021	Lachan Roth	Life history and Population Dynamics of Fire coral <i>Millepora</i> Species in the Red Sea.
Current	Noga Gavrieli	Coevolution between boring bivalves and stony corals.
Current	Maya Gross	Energy transfer between corals and boring bivalves.
Current	Shir Peretz	Symbiotic relationship between corals and boring bivalves.

ACTIVE PARTICIPATION IN SCIENTIFIC MEETINGS

- 1970** Symposium of Regional Variation of Indian Ocean Coral Reefs.
The Royal Society and Zoological Society of London, London.
Invited lecture: Coral community structure at Eilat, Red Sea.
- 1971** The Penrose Conference on Marine Ecology and Pale ecology,
Monterey, California.
Lecture: Community structure and species diversity of hermatypic corals.
- 1973** Second International Symposium on Coral Reefs, The Great Barrier Reef, Australia.
Plenary lecture: On the possible use of plotless methods for quantitative
studies of benthic communities of coral reefs.
- 1976** Third International Symposium on Coelenterate Biology, Victoria, B.C., Canada.
Lecture: Settlement, mortality and recruitment in a Red Sea scleractinian coral population.
- 1977** Third International Coral Reef Symposium, Univ. of Miami, Florida.
Lectures:
1. Seasonal occurrence of benthic-algae communities and grazing regulation by
sea-urchins at the coral reefs of Eilat, Red Sea.
2. Harmful effects of chronic oil pollution on a Red Sea scleractinian coral population.
- 1978** Tenth International Congress of Sedimentology, Jerusalem.
Field leader: "Pleistocene and Recent coral reefs and coastal sedimentation in the Gulf of
Eilat".
- 1978** Second International Congress of Ecology, Jerusalem.
- 1979** Australian Institute of Marine Science (AIMS) Workshop on Coral Reefs.
Cape Ferguson, Townsville, Australia
Lecture: Life-history strategy of a Red Sea coral population.
- 1980** UNESCO workshop on Marine and Coastal Processes in the Pacific: Ecological aspects of
coastal zone management.
Mutupore Island Research Centre, Port Moresby, Papua New Guinea
Panel leader: Degradation of the environment.
- 1980** Second International Symposium on Biology and Management of Mangroves
and Tropical Shallow Water Communities. The Western Society of Naturalists and the
University of Papua New Guinea. Port Moresby, Madang, Papua New Guinea.
Plenary lecture: Competition for space among coral reef sessile organisms.
- 1981** Fourth International Coral Reef Symposium, Manila, Philippines.
Lecture: Life-history strategies of boring bivalves in corals
- 1981** U.S. National Academy of Sciences - Update workshop on: "Oil in the sea:
Inputs, Fates and Effects". Invited referee in the section of Effects of
Petroleum Hydrocarbons on Coral Reefs. Clearwater, Florida, USA.
- 1982** International Conference on Marine Science in the Red Sea. Al-Ghardaqha
Marine Biological Station, Egypt.
Lecture: Seasonal changes in growth rates of a Red Sea coral population.
- 1982** Workshop on Evolution and Maintenance of Modern Coral Distributions.
Australian Institute of Marine Science, Townsville, Australia.
Invited lecture: Reproductive cycle of *Stylophora pistillata* in the Great
Barrier Reef and the Red Sea.
- 1983** Great Barrier Reef Conference. James Cook University and the Australian Institute of Marine
Science (AIMS), Townsville, Australia.
Plenary lecture: Community structure and life-history strategies of scleractinian corals.
- 1983** International Helgoland Symposium: "Diseases of Marine Organisms".
Biologisch Anstalt Helgoland, Helgoland, Germany F.R.
Invited lecture: Tumor formations in scleractinian corals.
- 1983** Second Conference of the International Society of Reef Studies, Nice, France.

- Plenary lecture: Reproductive patterns of Red Sea corals.
- 1985** Fifth International Coral Reef Congress, Tahiti.
Invited lecture: Seasonal changes in growth rate of a Red Sea coral population.
- 1985** Western Society of Naturalists Annual Meeting, Monterey, USA.
Lecture: Sexual reproduction in reef corals: Red Sea versus the Great Barrier Reef.
- 1986** The Woods Hole Research Center: Conference on Biotic Impoverishment, Woods Hole, USA.
Plenary lecture: Changes in a Red Sea coral community under chronic oil pollution: A long-term case-history study.
- 1987** Twenty-second European Marine Biology Symposium, Barcelona, Spain.
Plenary lecture: Pollution effects of coral reef communities.
- 1987** Workshop on oil pollution effects on the coral reefs of Panama; Meeting of Scientific Review Board, Phase 1. Smithsonian Tropical Research Institute, Panama.
- 1987** Regional Research Workshop and International Symposium on the Conservation and Management of Coral Reef and Mangrove Ecosystems, Okinawa, Japan.
Invited lecture: Effects of man-made versus natural disturbances on coral reefs.
- 1988** Sixth International Coral Reef Symposium, Townsville, Australia.
Lecture: First sclerochronological record of hermatypic corals from the Red Sea.
- 1988** Workshop on the long-term assessment of the oil-spill at Bahia Las Minas, Panama. Washington, DC., USA.
- 1989** Fifth International Conference on Coelenterate Biology, Southampton, England.
Lecture: Larval and post-larval recruitment in the broadcasting scleractinians *Favia favus* and *Platygyra lamellina*.
- 1989** Fifth International Congress of Invertebrate Reproduction, Nagoya, Japan.
Lecture: Resource allocation between growth and reproduction in corals and boring bivalves.
- 1989** Annual meeting of the International Society for Reef Studies, Marseilles, France.
Invited lecture: Bioerosion of coral reefs.
- 1989** Workshop on the oil pollution effects on the coral reefs of Panama;
Meeting of the Scientific Review Board, Phase 2.
Smithsonian Tropical Research Institute, Panama.
- 1990** Fifth International Congress of Ecology, Yokohama, Japan.
Invited lecture: Coral host specificity between the date mussel *Lithophaga lessepsiana* and the coral *Stylophora pistillata*.
Workshop on coral bleaching, Coral Reef Ecosystems and Global Climate Change. Miami, Florida.
- 1991** Invited lecture: Climate change in Sinai Desert during the late Quaternary inferred from fluorescent bands in fossil corals.
- 1991** Workshop on oil pollution effects on the coral reefs of Panama;
Meeting of Scientific Review Board, Phase 3. Smithsonian Tropical Research Institute, Panama.
- 1992** Seventh International Coral Reef Symposium, Guam,
Lectures: 1. Settlement, metamorphosis and bioerosion rate of the boring bivalve *Lithophaga lessepsiana*. 2. Depth-dependent timing of density band formation in scleractinian corals at the coral reefs of Eilat, Red Sea, Israel.
- 1992** Status seminar of the German-Israeli Co-operation in Environmental Research; Ploen, Germany.
Lecture: A new method to assess indicators of environmental stress and possible stabilization of toxicants in the environment.
- 1992** International Symposium on Biodiversity and Adaptive Strategies of Coral Reef Organisms, Okinawa, Japan.
Plenary lecture: Massive predation of scleractinian corals at Eilat caused by

- the predatory gastropod *Drupella cornus*.
- 1993** Conference on Middle East Multilateral Talks, UCLA, Los Angeles, USA.
Invited lecture: Development and protection of the Gulf of Aqaba.
- 1993** Conference on Global Aspects of Coral Reefs: Health, Hazards and History, Univ. of Miami, USA.
- 1994** Plenary lecture: Long-term changes in coral community structure at Eilat, Red Sea.
The Porter Super-Center for Ecological and Environmental Studies Organizer of the International Symposium on the Peace Process and the Environment (Sept. 2004).
Lecture: Development and Protection, of the Gulf of Aqaba.
- 1995** UNESCO 28th General Meeting: -Scientific Representative of the Israeli delegation proposing to declare the Gulf of Aqaba (Eilat) as a Biosphere Reserve.
- 1995** Conference of the Red Sea Program (RSP) on Marine Sciences, Dahab, Egypt.
Lecture: The use of scleractinian corals as environmental recorders of the Red Sea.
- 1995** International Coral Reef Initiative Workshop; Dumaguete City, Philippines.
Israeli representative discussing quantitative methods for monitoring coral reefs.
- 1995** 18th Pacific Science Congress: Population, Resources, and Environment Prospects; Beijing, China.
Lecture: Stony corals as environmental recorders.
- 1996** Eighth International Coral Reef Symposium, Panama City, Panama.
Lecture: Predation of corals by the predatory snail *Drupella cornus*.
- 1997** Biotic recoveries from mass extinctions; Panel member.
Academy of Sciences, Prague, Czech Republic.
- 1997** Workshop of the Bi-national Research and Monitoring Program (Israel –Jordan)- (MERC) for the Red Sea Marine Peace Park: –Discussion Leader. Aqaba, Jordan.
- 1998** Annual meeting of the Society for Integrative and Comparative Biology; Boston, USA.
Lecture: Bleaching of corals caused by bacteria.
Meeting of the Red Sea Program of Marine Sciences, Bremen, Germany.
Lecture: Scleractinian corals as environmental recorders of global change.
- 1998** Hawaii Coral Reef Monitoring Workshop-A Tool for Management; Univ. of Hawaii
Plenary lecture: The Red Sea Peace Park Coral Reefs Benthic Communities: Ecology and Biology Monitoring Program.
- 1998** The Third EuroMab Biosphere Reserves Coordinators' Meeting Ilomantsi, Finland.
Lecture: The Red Sea Peace Park as a Transboundary Marine Biosphere Reserve.
- 1998** Expert workshop on coral bleaching: Convention on Biological Diversity Manila, Philippines.
Invited lecture: Devastating Coral bleaching in Okinawa, Japan.
- 1998** The Third Euro-MAB Biosphere Reserves Coordinators Meeting, Ilomantsi, Finland.
Lecture: The Red Sea Peace Park as a Trans-boundary Marine Biosphere Reserve.
Japan Marine Science and Technology (JAMSTEC) International Coral reef
- 1999** Symposium- Coral reef biodiversity and health as indicators of environmental change, Tokyo, Japan. Invited lecture: Regeneration processes in scleractinian corals.
SUNY at Stony Brook: A Symposium in honor of Laurence B. Slobodkin:
Invited Lecture: The Coral Reefs of Eilat: A Long-term Case-History Study.
- 2000** **The 9th International Coral Reef Symposium, Bali, Indonesia. Awarded the Darwin Medal (Year 2000) for lifetime contribution to coral reef research.**
Invited Plenary lecture: Homage to *Stylophora pistillata*: a significant coral species in Red Sea coral reef research.
- 2001** The World Bank/UNESCO/IOC Workshop on Indicators of Coral Stress, Paris, France. Initiation of the International Working Group of Experts.
Lecture: Coral bleaching: the winners and the losers
- 2002** The International Society of Reef Studies European Coral Reef Meeting; Cambridge, England
Lecture: Bleaching of Mediterranean corals is caused by a bacterial pathogen
- 2002** The World Bank/UNESCO/IOC International Targeted Group of Experts on "Indicators of coral bleaching". First Field-Workshop of the Working Group.

- Heron Island, The Great Barrier Reef, Australia.
- 2002** Sixth EU Framework Program of the European Community for research technological development and demonstration activities; Network of Excellence Marine Molecular Biotechnology; Brussels, Belgium.
Invited lecture: Bioactive Compounds from Red Sea Marine Organisms.
- 2002** Workshop on "Biological considerations associated with current geochemical approaches using stony corals as proxies for the reconstruction of different aspects of past climates"; Woods Hole Oceanographic Institution, Cape Cod, Mass.
Invited lecture: "Using stony corals as proxies for the reconstruction of Red Sea past climates". The World Bank/UNESCO/IOC International Targeted Group of Experts on "indicators of coral bleaching".
- 2002** Second Field-Workshop of the Working Group, Puerto Morelos, Mexico.
International Review Board Meeting of the Coral Bleaching Project.
Research Institute of the Subtropics (RIS), Tokyo, Japan.
- 2003** The World Bank/UNESCO/IOC International Working Group on indicators of coral bleaching: - Workshop on Coral Bleaching: Biological Early Warning
- 2003** Systems, Paris, France.
Marine Molecular Biotechnology and Biodiversity Meeting; Wendelsheim, Germany.
Plenary lecture: Biodiversity of the Red Sea coral reefs: A unique source for new natural products.
- 2003** Workshop on "Coral Health and Diseases", Eilat, Israel.
Invited lecture: The coral reefs of Eilat: 35 years of monitoring their coral community structure.
The Red Sea Marine Peace Park International Symposium Integration of
- 2003** Marine Science and Resource Management, Aqaba 2-4 December 2003
- 2003** International Coral Ecotoxicology and Health Workshop: Bermuda Biol. Stat. for Research
Invited lecture: The coral reefs of Eilat - past, present and future: Three decades of coral community structure studies
- 2004** The 10th International Coral Reef Symposium, June, Okinawa, Japan
Lecture: How to kill a coral reef?
- 2004** Census of Marine Life (CoML) Coral Reef Initiative Working Group: Quantitative methodologies for assessing coral community bleaching 14-16 October Washington DC
- 2004** IOC-GEF/World Bank working group on coral bleaching Workshop, 19-22 October, Washington DC
- 2004** Awarded the Landau Prize by Mifaal Haapais for: "original outstanding research contribution to the field of Ecology and Environmental Quality". Tel Aviv; 9 March
Invited public lecture: "The coral reefs of Eilat - past, present, and future".
- 2005** The World Bank/ /IOC-GEF International targeted Group of Experts third workshop on indicators of coral bleaching; 8-16 January, Puerto Morelos, Mexico
- 2005** Ilanit Congress of the Federation of the Israel Societies for Experimental Biology (FISEB) February 7-10 Eilat.
Invited Plenary Lecture: The Coral Reefs of Eilat: Three decades of Coral community structure studies.
- 2005** Peer Review of the Department of Ecology and Evolutionary Biology, 13-16 April, Ravenna, Italy.
- 2005** World Bank/ UNESCO/IOC-GEF International targeted Group of Experts fourth workshop on indicators of coral bleaching, 10-29 May, Puerto Morelos, Mexico
- 2006** GEF/World Bank working group on coral bleaching Workshop, 7-11 April, Paris France.
- 2006** ARC Centre of Excellence- first scientific annual board meeting, February 17-20, Townsville, Australia.
- 2006** Palau Coral reef workshop, Koror June 25th-July 8th.
Lecture: Fish net-pen mariculture and the coral reefs of Eilat: a sad story.
- 2006** ISRS (Intern. Society for Reef Studies) European Meeting Bremen, Germany Sept 19-22

- Lecture: Net pen fish farming and coral reefs: An unhappy marriage.
- 2007** ARC Centre of Excellence- second scientific annual board meeting, February, Sydney, Australia.
Invited Lecture: The Coral Reefs of Eilat: Three decades of coral community structure studies.
- 2007** University of California Los Angeles (UCLA), Dept. of Evolutionary Biology:
Invited Lecture: How to influence environmental decision makers? The case of Eilat coral reefs.
- 2007** GEF working group on coral bleaching Workshop, Nov. 20-25, Miami, Florida
- 2008** IOC-GEF/World Bank/UNESCO working group on coral bleaching Workshop
February 12-16, Amsterdam, the Netherlands.
- 2008** The 11th International Coral Reef Symposium, June 7-11, Miami, Fort Lauderdale, USA
Lecture: Bidirectional sex change in fungiid corals.
- 2008** First International Congress Documenting, Analyzing and Managing Biodiversity in the Middle East. October 20-23, Aqaba, Jordan
Lecture: The Coral Reefs of Eilat-past present and future.
- 2009** International Okinawa Churaumi Aquarium Symposium on "Reproduction of marine organisms" Feb. 21-23, Okinawa, Japan.
Lecture: Repetitive sex change in mushroom corals.
- 2009** GEF/World Bank working group on coral bleaching Workshop
May 15-30, Heron Island, Australia.
- 2009** Organizer of a joint workshop of the Australian Research Council (ARC) Center of Excellence (CoE) for Coral Reef Studies and the Interuniversity Institute for Marine Sciences in Eilat (IUI): "Coral reefs of the Indo-Pacific in an era of global change" held at IUI, Eilat, Israel, 5-6 October.
- 2009** The 12th Japanese Coral Reef Society meeting. Memorial lecture in the honor of Professor Kiyoshi Yamazato. 28-29 November, Okinawa, Japan.
Plenary Lecture: "Reproductive Patterns of Fungiid Corals in Okinawa, Japan".
- 2009** 11th Intern. Symp. on spermatology Satellite Symposium, 30th June, Okinawa, Japan.
Lecture: "Fungiid corals: ideal model organisms to study the evolution of coral reproductive traits"
- 2010** ARC Center of Excellence symposium: "Coral reefs in a changing environment"
7 October, Canberra, Australia
Keynote address: "Multiple sex changes in mushroom corals".
- 2011** ARC Center of Excellence symposium: Coral Reefs: Coast to Coast symposium.
Fremantle, Perth Western Australian Maritime Museum:
- 2011** Annual Zoological Society of Israel 25th Dec. Tel Aviv University
Recipient of honorary membership of the Zoological Society of Israel
Plenary lecture: Reproductive strategies in mushroom stony corals
- 2012** The 12th International Coral Reef Symposium 9-13 July Cairns, Queensland, Australia.
Lecture: The solitary coral *Fungia fungites* is a protogynous sequential hermaphrodite brooder.
- 2012** Amakusa Biodiversity Symposium: Biodiversity in Changing Coastal Waters of Tropical and Subtropical Asia November 29-Dec.4; Amakusa Japan
Lecture: *Fungia fungites*: a unique sex-changing brooder among the Fungiidae.
- 2013** Australian Research Council (ARC) Center of Excellence Symposium, Townsville, Australia, 9-12 October 2013: "Coral Reefs in the 21st Century"
Invited Plenary Lecture: Reproductive Strategies of Fungiid Corals
- 2013** Eighth International Conference on Coelenterate Biology (ICCB8), Dec 1-7 Eilat, Israel
Plenary Lecture: Reproductive Strategies of Fungiid Corals in the Coral Reefs of Okinawa, Eilat and Aqaba.
- 2014** Second International Mesophotic Coral Reef Workshop (MCEIsrael), Oct. 26-31, Inter-University Institute (IUI), Eilat, Israel (Chairman and organizer of workshop).
- 2015** **Israel's scientific representative in a High-Level Symposium at the United Nations: "One Ocean: Achieving Sustainability through Sanctuaries" (5 March 2015)**
Plenary Lecture: "The coral reefs of Eilat: 45 years of coral community studies".
- 2015** Expert Habitat Committee Meeting 10th to 12 March 2015 National Museum of Natural-

- History, Paris "developing a marine habitat classification targeted at coral reefs".
- 2016** Conference on Marine Protected Areas: An Urgent Imperative Dialogue Between Scientists and Policymakers; the Government of Italy and the Ocean Sanctuary Alliance March 7-10 Rome
- 2016** The 13th International Coral Reef Symposium 19-24 June Honolulu, Hawaii.
Lectures: 1. The Red Sea coral *Euphyllia paradivisa*: Is it really going extinct?
2. Ecophysiological aspects of depth dependent fluorescence in the coral *Galaxea fascicularis*
- 2016** Eco-Forum Global Conference Guiyang, China 7-14 July.
Plenary lecture: Coral reefs in an era of Global Climate change.
- 2016** Novel Achievements in Coral-Reef Research in a Period of Global Climate Change: Japan- Israel Workshop under the Auspices of Science Council of Japan and Israel Okinawa Institute of Science and Technology Graduate University (OIST); Nov 28-Dec. 2. Organizer of the meeting.
Plenary lecture: The coral reefs of Eilat: 45 years of community structure studies.
- 2017** The 1st International Symposium on Coral Reefs (Hainan); the 1st International Forum on Coral Reefs; Sanya, Hainan, China Jan. 6-13.
Lecture: Coral reproduction and sex change.
- 2017** The European Coral Reef Symposium (ECRS) Oxford UK, Dec. 12-14.
Co-author in posters and lectures presented by three of my students.
- 2018** International symposium on the response of coral symbionts to global climate change and human activities (Haiku, Hainan, China (Dec. 9-10, 2018)
Plenary lecture: 50 years of coral community structure studies in Eilat, Israel (Red Sea).
- 2018** The Gordon Conference (GRC) on "The Functional Roles of Mesophotic Coral Reefs (MCEs) in the Anthropocene"; Bates College, Lewiston, ME, US; (June 17 – 22).
Discussion Leader:"Anthropogenic Change and The Future of Mesophotic Coral Reefs"
Introductory lecture:" Anthropogenic change and the future of mesophotic coral reefs".
- 2018** MUSÉUM NATIONAL D'HISTOIRE NATURELLE *Flongée-découverte au cœur des récifs*; l'auditorium de la Grande Galerie de l'Évolution. France- Israel events celebrating Israel's 70th Independence Oct.15, 2018
Invited public lecture: "growth and senescence in stony corals".
- 2018** Steinhardt Museum of Natural-History, Tel Aviv University; France- Israel events Celebrating Israel's 70th Independence, Nov. 1, 2018.
Invited public lecture: "The future of coral reefs in an era of global climate change".
- 2018** International symposium on the response of coral symbionts to global climate change and human activities (Haiku, Hainan, China (Dec. 9-10, 2018)
Invited plenary lecture: Five decades of coral community structure studies in Eilat, Israel
- 2019** A symposium celebrating the 50th anniversary of the Inter University Institute of Marine Sciences (IUI) in Eilat: Red Sea marine ecosystems under anthropogenic changes
Invited plenary lecture: "The coral reefs of Eilat: 50 years of coral community studies.
- 2019** The second International Coral Reef Forum Hainan South China Sea Institute of Tropical Ocean, Hainan to be held Dec. 13 -16, 2019, Sanya, China.
Invited plenary lecture: "Breakdown of spawning synchrony silently threatens coral persistence"
- 2022** The 15th International Coral Reef Symposium 3-8 July 2022, Bremen, Germany
- 2023** Gordon Research Conference: "Connectivity and Resilience Relative to Shallow Reefs" 19-25 March, Ventura, California.
- 2023** The annual conference of the Israel Society of Ecology and Environmental Sciences (ISEES):
Invited plenary lecture: 50 years of research of the coral reefs of Eilat.
- Awarded "Lifetime Achievement Award" on behalf of the Association.**

Life history strategies of reef corals: growth and reproduction

In contrast to many corals of the Great Barrier Reef, Australia, which are synchronous multispecific spawners, the abundant coral species in the northern Red Sea, Israel, exhibit temporal reproductive isolation. Spawning periods of the most abundant coral species occurred in different seasons, different months, or different lunar phases within the same month.

Global climate changes and its effect on biodiversity of coral reef communities

WORLD BANK/ UNESCO Project on the consequences of Coral Bleaching in the Great Barrier Reef (Australia), Zanzibar, Philippines & Mexico

(Bleaching working group <http://www.gefcoral.org/>)

The Bleaching Working Group (BWG) has set established permanent study sites in Zanzibar, Puerto Morelos and Heron Island. At these sites, researchers are exploring the population dynamics under natural and perturbed conditions, as well as spatial patterns in population size frequency distributions and temporal changes of the populations in and out of bleaching events. Work within this research area also aims to resolve the potential impacts of changes in coral health on the many other species that are dependent on coral reefs for food and shelter.

Conservation Ecology of Coral-Reefs

The coral reefs of Eilat: Past, present and future

Past, present and future

Deterioration in water quality due to eutrophication adversely affects coral reef community structure by promoting algal growth and turbidity, reducing light necessary for coral growth, adversely affects coral reproduction and has also been associated with increased bioerosion and epizootics. During the last 10 years, the yield of the fish farm industry in Eilat has grown exponentially from 300 tons/yr in 1994 to 2700 tons/yr in 2005. Cultured fish fed by 4500 tons/year “fish pellets” result in nutrient pollution (eutrophication), of the water column by 300 tons of Nitrogen and 50 tons of Phosphate annually.

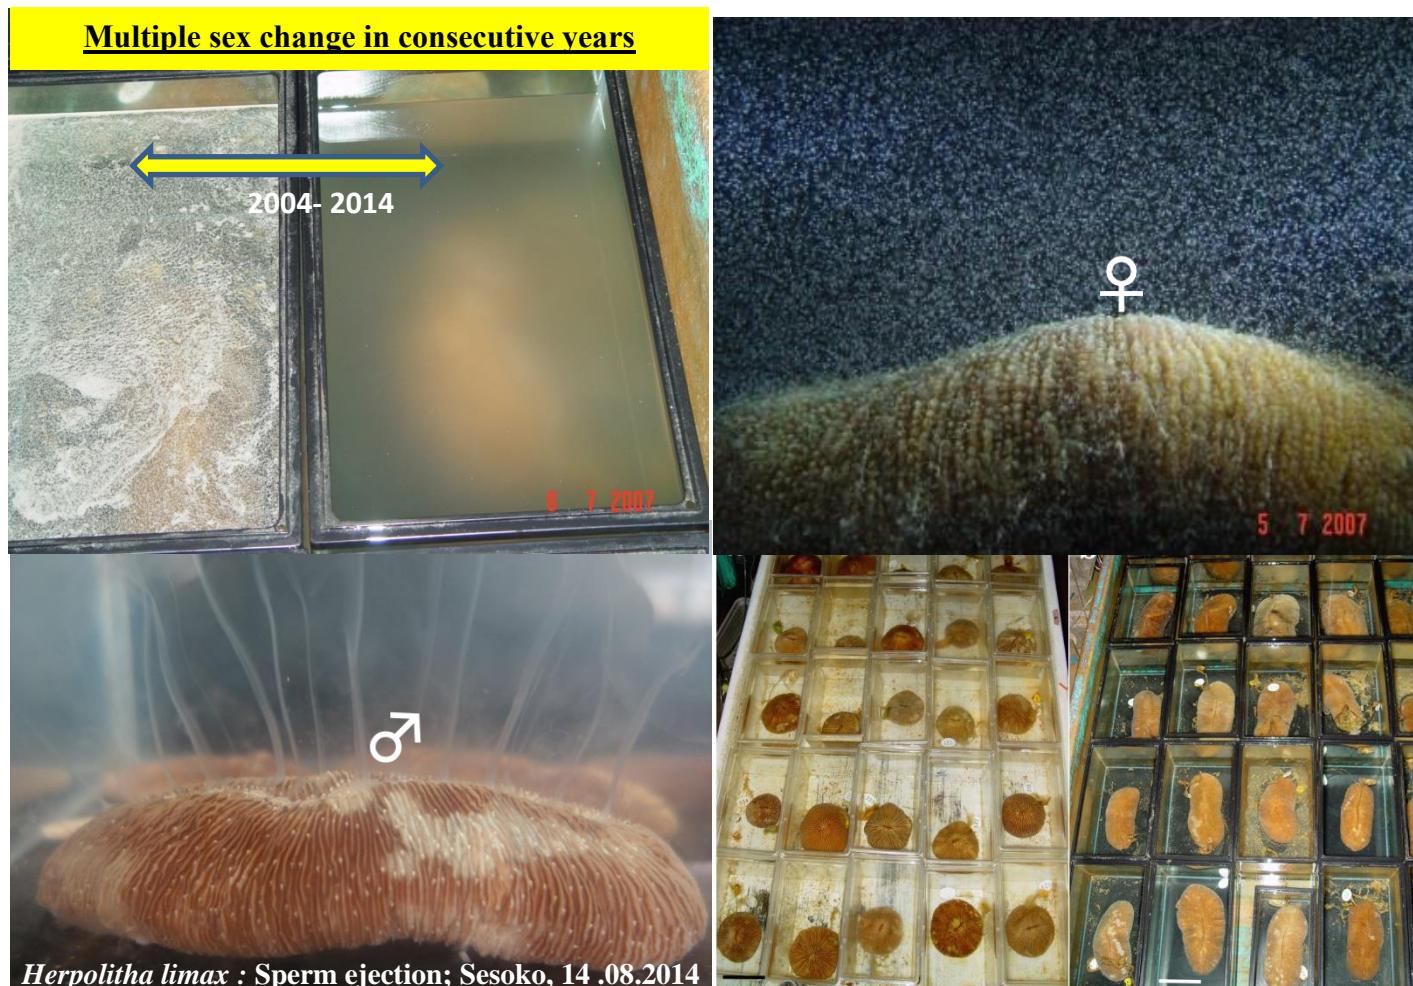

➤ 2009 After government rule: Fish cages were removed from the northern Gulf of Eilat !

Repetitive sex change in Fungiid species

In this study, we describe for the first-time sex change occurring in corals. This includes a novel mode of repetitive sex change, which resembles that found in plants that display labile sexuality in response to environmental and/or energetic constraints. We suggest that resource partitioning in sex-allocation constitutes a flexible response of sex changing fungiid corals to local environmental conditions, and that their bidirectional sex shift reflects energy constraints on female reproduction. We discuss some intriguing analogies between the studied corals to sexually labile plants and posit that sex change in fungiid individuals enhances their fitness in a similar way to that which occurs in those plants. The novel finding of sex change in scleractinian corals reinforces the important role of reproductive plasticity in determining the evolutionary success of the Phylum Cnidaria

Mesophotic Coral Ecosystems (MCEs; 30-120 m depth)

Mesophotic coral ecosystems (MCEs) are unique tropical and subtropical ecosystems characterized as light-dependent reef communities typically found at depths ranging from 30-40 m and extending to over 150 m in clear waters. This book provides the first comprehensive synthesis of the state of knowledge about MCEs worldwide. It also highlights how much we still have to learn. We invited authors to submit manuscripts focused on identified topics, with the co-authors of their choosing. Each manuscript underwent technical review by scientific and management experts to ensure its scientific integrity. The peer-review process consisted of over 200 individual reviews that were used by the authors to improve their manuscripts.

Coral reproduction and community structure: long-term studies

We quantified coral spawning intensity during four annual reproductive seasons, alongside laboratory analyses at the polyp, colony, and population levels, and we demonstrate that, compared with historical data, several species from the Red Sea have lost their reproductive synchrony. Ultimately, such a synchrony breakdown reduces the probability of successful fertilization, leading to a dearth of new recruits, which may drive aging populations to extinction (*Science* 2019).

Historically, marine populations were considered to be interconnected across large geographic regions due to the lack of apparent physical barriers to dispersal, coupled with a potentially widely dispersive pelagic larval stage. We performed a series of ex-situ and in-situ experiments using coral larvae of three brooding species from contrasting shallow- and deep-water reef habitats. We show that their settlement success, habitat choices, and subsequent survival are substantially influenced by parental effects in a habitat dependent manner. Local adaptations and parental effects alongside larval selectivity and phenotype-environment mismatches combine to create invisible semipermeable barriers to coral dispersal and connectivity, leading to habitat-dependent population segregation (*Communication Biology*, 2021).

Coming of age: Onset of coral reproduction is determined by age rather than size

Constraints on organisms possessing a unitary body plan appear almost absent from colonial organisms. Like unitary organisms, however, coral colonies seemingly delay reproduction until reaching a critical size. Elucidating ontogenetic processes, such as puberty and aging are complicated by corals' modular design, where partial mortality and fragmentation lead to distortions in colony size-agerelationships. We explored these enigmatic relations and their influence on reproduction by fragmenting sexually mature colonies of five coral species into sizes below the known size at first reproduction, nurturing them for prolonged periods, and examining their reproductive capacity and trade-offs between growth rates and reproductive investment. Most fragments were reproductive regardless of their size, and growth rates hardly affected reproduction. Our findings suggest that once the ontogenetic milestone of puberty is reached, corals retain reproductive capacity irrespective of colony size, highlighting the key role that aging may have in colonial animals, which are commonly considered non-aging.
