

Biosketch

Name: Dr Hassan Massalha

Affiliation: Wellcome Sanger Institute and Cambridge University, UK

B.Sc.: Biotechnology and Food Sciences, Faculty of Agriculture, HUJI

M. Sc.: Life Sciences, Weizmann Institute of Science, IL

Mentor: Prof. Dov Zipori

PhD: Metabolomics and plant-microbe interaction, Weizmann Institute of Science, IL

Thesis title: Identifying plant-derived small molecules affecting the composition and/or behavior of the rhizosphere microbiome

Advisor: Prof. Asaph Aharoni

Post-Doc Fellow: Weizmann Institute of Science, IL

Supervisor: Prof. Shalev Itzkovitz

Project/s: Liver tumor microenvironment

Post-Doc Fellow: Wellcome Sanger Institute and Cambridge University, UK

Supervisor: Dr Roser Vento-Tormo

Project/s: Human thyroid development

Seminar title: Endocrine Cell Development in Human Fetal Thyroid Across Health and Disease
